P.R.KING & SONS PTY LTD

FAMILY OWNED SINCE 1922

With over 90 years experience in the lift industry,
P. R. King & Sons are experts in design, manufacture and installation.

Our dedicated team will be with you every step of the way, from purchase and installation to after sales support.

P. R. King & Sons Marrickville offices and showroom. 1960's

One of the first Inclinator. 1955

Winch for snowy scheme. 1950's

Our Pledge to You

At P. R. King & Sons, our customers are at the centre of everything we do.

We are committed to providing you with a lift of the highest quality, backed by first class customer service.

STRAIGHT RAIL

The latest design in straight rails from Stannah is both elegant and slimline. It has a concealed rack, preventing the build up of dust and dirt on the rail and also making it look attractive on your staircase.

Sofia Chair folded at the bottom of the stairs on a Straight Rail

Sofia Chair swivelled at the top, for added safety and easy access, of the stairs on a Straight Rail

CUSTOM RAIL

Staircases come in all shapes and sizes so a one-size-fits all stairlift solution is not possible. Our rails are made-to-measure to fit the dimensions of your home perfectly. The rails are fixed to the stairs and not the wall so it's safe and secure when it's installed. The installation is quick, easy and stress-free.

OUTDOOR

Enjoy the great outdoors whatever the weather with our outdoor straight stairlift. It's a perfect solution for either a flight of outside stairs, or just a few steps down your garden. The stairlift was specifically designed to work in a variety of weather conditions; sunshine, rain or snow.

OUTDOOR KEY FEATURES

1. LED Light

Indicates clearly that the stairlift is on.

2. Safety edges

Safety sensors around the base automatically detect obstructions on your stairs and bring your outdoor stairlift to a safe stop.

3. Seatbelt

Easy-to-use seatbelt for extra safety.

4. Directional controls

Mounted on either arm, lightly touch the joystick and glide effortlessly up or down the stairs.

5. Keyswitch

You can use the keyswitch to completely turn off the stairlift if you need to.

6. Cover

To keep your chair clean and ready for use.

SADLER

Designed specifically for people with limited flexibility, the Sadler is a revolutionary concept in stairlift design; for custom staircases only. It helps you maintain a more upright posture at the same time as taking most of your weight through the seat, minimising the weight supported by your legs.

SADLER KEY FEATURES

1. Saddle style seat

An assisted seat feature offers easy entry and exit from the chair. The seat height can be ordered in different heights to suit your needs.

2. Safety edges

Safety sensors around the base automatically detect obstructions on your stairs and bring your Sadler stairlift to a safe stop.

3. Arm-to-footrest link

You can fold away the downside arm and the footrest will fold automatically when you are not using the stairlift.

4. Easy-to-use seatbelt

Easy-to-use seatbelt that can be fastened with one hand. The stairlift will not operate unless the seatbelt is securely fastened.

The slim design is great for homes where the staircase is too narrow to accommodate a traditional stairlift.

All of our products combine high quality design and practicality. The Sofia has been designed with ultimate comfort and elegance in mind. A host of features make it easy-to-use and can be tailored to suit you and your needs.

SOFIA KEY FEATURES

1. One-step folding

Flip up the arms and the seat and footrest follow, folding flat to leave more space on your stairs.

2. Adjustable arms

Both arms on the Sofia can be adjusted on installation to fit you. Comfortable, soft-touch arm tops.

3. Swivel levers

Use the levers, or optional automatic one or two-way swivel, to get off your stairlift in the safest position at the top or bottom of your stairs.

4. Safety edges

Safety sensors around the base automatically detect obstructions on your stairs and bring your Sofia to a safe stop.

5. Control pod

Operated with a light touch, gently move the control in the direction you want to travel. The pod can also be used to lock the stairlift.

6. Removable link bars

Ensure easy wheelchair transfer.

7. Seat safety sensor

Ensures your stairlift won't move until you are safely settled into the chair.

8. Seatbelt

Easy-to-use seatbelt that can be fastened with one hand.

9. Stylish upholstery

Available in leather, vinyl and woven fabrics in a range of colours to match your décor.

THE SOLUS CHAIR

The Solus is available on both straight and custom staircases with the same features and upholstery choice as the Sofia, the Solus was designed as a contemporary option to the Sofia.

STARLA

Whatever you want from your stairlift, you'll find it in the Starla. The only chair in our range that offers a dark or light wood trim around the upholstery for a sophisticated two-tone look. A host of thoughtful and intuitive features makes it exceptionally safe and secure.

STARLA KEY FEATURES

1. Plain or wood trimmed

Choose the all-fabric or all-vinyl chair and add a dark or light wood trim.

2. Seatbelt

Easy-to-use seatbelt that can be fastened with one hand.

3. Swivel levers

Use the levers, or optional powered one-way swivel or two-way swivel to get off your stairlift in the safest position.

4. Arm isolation

This safety system prevents your Starla from moving until the armrest nearest the bottom of the stairs is fully lowered.

5. Powered footrest

An optional powered footrest folds or unfolds independently, ideal for you to sit on or get off the chair with the footrest out of the way.

Beige

Generously upholstered and comfortably shaped to ensure a cosy and secure ride.

SIENA

Choose the Siena and you get classic comfort and style together. The Siena combines fresh, contemporary styling with the best in engineering. The deeply upholstered chair is an ideal choice for everybody.

SIENA KEY FEATURES

1. Powered footrest

An optional powered footrest folds or unfolds independently, ideal for you to sit on or get off the chair with the footrest out of the way.

2. Safety edges

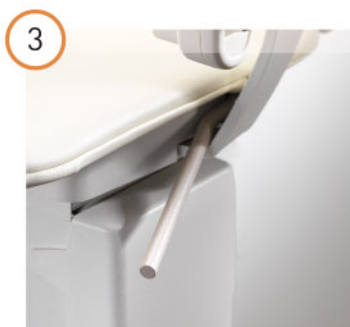

Safety sensors around the base automatically detect obstructions on your stairs and bring your Siena stairlift to a safe stop.

3. Swivel levers

Use the levers, or optional powered one-way swivel on the custom stairs or one or two-way swivel on the straight stairs to get off your stairlift in the safest position.

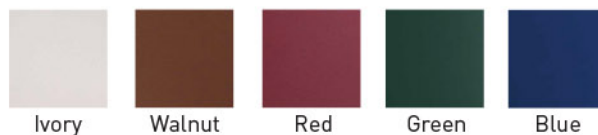

4. Arm isolation

This safety system prevents your Siena from moving until the armrest nearest the bottom of the stairs is fully lowered.

Using your Siena is very easy. The simple, light-touch controls are right at your fingertips.
