XPress II Stair-Lift

Inclined platform lift for straight stair ways

The Garaventa Stair-Lift Xpress II is an inclined platform lift designed for straight stairways. The Xpress II is a safe, reliable and cost-effective accessibility solution.

This lift can be installed on your site with little to no structural modifications. It is suitable for public building and residential applications.

Standard Platform Sizes

1250mm x 810mm BCA Compliant
1250mm x 800mm Side load
1000mm x 800mm

Optional Platform Sizes

1000mm x 725mm
1000mm x 675mm

Technical Information

Rated Load: 250kg with a safety factor of 5

Speed:

Up: 4 metres (13 ft.) per minute
Down: 4.9 metres (16 ft.) per minute

Operating Controls: Constant pressure switches, 24 VDC.

Drive System:

Motor: 0.75 H.P.

Power Requirements: 240 VAC, 50/60 HZ single phase on a dedicated circuit.

Power Transmission: Rack & pinion

Emergency Use: A handwheel is provided. Auxiliary power system available.

Rail System: Champagne anodized aluminum extrusion with integrally mounted zinc plated gear rack.

Overspeed Safety: Mechanical overspeed sensor and lock, with electrical drive cut-out protection.

Xpress Delivery Time: Standardised components allow us to provide custom configured lifts with very fast delivery times.

Standard Features

- Large BCA compliant platform
- Choice of three platform sizes
- Passenger grab rail
- Under platform sensing plate and bi-directional ramp sensors
- Emergency manual lowering and folding system
- Ready lamp safety indicator
- Power-fold platform and ramps
- Keyed Call Stations
- Fold down seat with seat belt
- Attendant remote control
- Keyed platform operation for additional security
- Platform controls include two large illuminated directional buttons and an emergency stop button
- Powered safety arms

Optional Features

- Auxiliary power system
- Wireless call station controls
- Fire alarm integration
- Side-load platform for installations with confined lower landings
- Narrow platform sizes
- Platform folds automatically if left unattended at landing to keep stairways clear
- Optional RAL colors
- Pedestrian audio visual alert
- Building fire alarm integration
- Vandal resistant Platform lock (electric)
- Outdoor cover

The Xpress II is equipped with powered safety arms.

The fold feature folds the platform allowing better pedestrian access.

The fold-down ambulatory seat allows a person with limited mobility to comfortably operate the Xpress II.
