GARAVENTA STAIR-TRAC

The Garaventa Stair-Trac is an easy to use, portable inclined wheelchair lift designed to attach under most manual wheelchairs. The Stair-Trac's powerful motor allows an attendant to safely and easily transport passengers up and down stairways without strain or exertion.

APPLICATIONS

An affordable and reliable portable access solution, the Stair-Trac is suitable for indoor or outdoor use in public buildings and private homes.

Technical Information

Load Capacity: 130 kg

Power Capacity: 650 stairs

Maximum Speed:

Up Stairs: 6.5 m / min

Down Stairs: 8.8 m / min

Motor: 12 VDC

Batteries: 2 x 6V - 20AH

Max. Charge Rate: 4 amp

Optimum Stair Angle: 35°

Dimensions:

Height: 922 mm

Length: 1468 mm

Width: 636 mm

Weight:

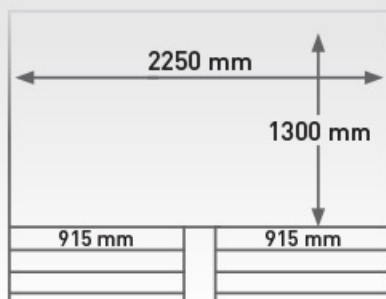

Drive Frame: 39.5 kg

Support Handle: 14 kg

Total Weight: 53.5 kg

CLEARANCES

Wheelchair loading and unloading requires a minimum straight-line clearance of approximately 3m. The diagram below shows typical clearances required on turnback stairways. Dimensions vary with stairway width and operator experience.

Standard Features

- Attaches to most standard manual wheelchairs with push handle (both adult and child chairs).
- Powered to carry up to 130kgs.
- Stable, self-supporting design.
- Durable tracks grip stairs securely.
- Detachable support handle for compact storage and easy transport.
- Quick-release safety belt.
- Key switch restricts use to authorised persons.
- Rechargeable batteries and charger.

Stair-Trac Benefits

- Use on virtually any indoor or outdoor stairway.
- An economical alternative to a traditional lift.
- Ideal solution for transportation and evacuation in a power failure or when power is not available.
- Easy to store in a secure area when not in use.
- Requires minimal maintenance
- Available immediately
- Can be used for building evacuation
- As it is portable it can be used on various stairways within a building or campus.
